## Interface RF Connector with Switch, 3.9mm High, DC to 6GHz

## MS-147 Series

#### Features

#### 1. Low insertion loss

Insertion loss is as low as: Typically, 0.08dB at 1GHz Typically, 0.1dB at 2GHz

#### 2. Space saving

External dimensions are 5.8mm x 5.4mm. Saves installation space.

#### 3. Low profile

Switch height is 3.9mm.

#### 4. Light weight

Switch weight is 0.11g

#### 5. Long life

The switch is guaranteed for up to 12,000 mechanical operations.

#### 6. Auto insertable

Available in embossey tape-and-reel auto-insertable format

#### 7. Wide application range

Operating frequency from DC to 6GHz.

#### 8. RoHS compliant

All components and materials comply with the requirements of the EU Directive 2002/95/EC.

#### 9. Self-alignment

The eccentricity for plug mating is  $\pm 0.5$ mm.

#### Application

\* Wireless communication (Bluetooth, IEEE 802.11)\* Machines

(Portable terminal, notebook PC, ETC, POS terminal, GPS terminal PDA, etc.)

\* Also suitable for other high-frequency machines.

#### Outline

The ultra-small MS-147 coaxial switch series was developed for the portable terminal interface and for inspection of microwave boards (sub-strates) (DC - 6GHz) used at high frequencies.

To respond to the development of portable terminal technologies and popularization of high-frequency applications – up to 6GHz – this switch features low loss, low profile, and light weight.

The switch circuit is designed so that the NC terminal is connected to the C terminal without a plug mated. Mating with a plug opens this connection.

Vertical mounting structure allows the switch to be placed near the antenna of the portable terminal and used to inspect output and switch to an external antenna.

- 2. Not washable.
- 3. Design the mounting holes with sufficient clearance to protect the switch from being subjected to excessive force should the board be dropped.
- 4. For RF interface application for portable terminals, cover the plug entry with a rubber cap to keep dust out when no plug is inserted.
- 5. Be sure to fully insert the plug until it contacts part P.
